## SCHOOL PARLIAMENT IN PLANICA AND LJUBLJANA

On Wednesday, 8 June the participants of the Municipal Parliament attended the final excursion, which was a reward for their participation in the Municipal Parliament entitled "Traps of Adolescence".

First, the path led us to Planica, where we visited the new Nordic Centre, with all the ski-jumping hills and supporting facilities. With the chairlift we went to the top of the Planica giant, from where you can see an amazing view of the valley under Ponce. During the ride we had a chat with the jumpers of the Austrian team, who were just this day in Planica for training. Stefan Kraft kindly responded to our invitation for taking a photo together.

We continued to Ljubljana, where we visited the Presidential Palace, which already serves 117 years to representatives of

the state authorities, and it is one of the more known monuments in Slovenia.

We were accepted by the president of Slovenia, mister Borut Pahor, who surprised all of the participants of the trip with an ice cream. Before that he showed us his office, the conference room and he also photographed with us for a memory.

Later we had a walk through the old city and after that we returned home. We spent a wonderful day.

# MY SCHOOL TRIP TO DOLENJSKA

On 3 June 2016 6th class had a feild trip and we went to a lot of places such as a chocolate factory, castle Rajhenburg and many more.

We left Ponikva at 8.00 and came back around 18.00.

The first destination that we went to, was castle Rajhenburg. It was a very interesting castle. It has got a cafe so you can go drink if you are thirsty. It has Primož Kozmus' medals and that's beacuse Primož Kozmus decided that he will store his medals in castle Rajhenburg. Inside the castle there is also a chocolate factory and we made chocolate lollipops.

The second destination was the museum. We went around the city and we saw the house that Valvasor lived in. At the museum we saw a lot of things, too many too tell but some of them are: a boat that they used a long time ago, weapons from world war 2 and many more.

After the trip to the museum we went to have lunch at a reasturant. We were there about one hour.

After lunch we went to the monastery but we did not go inside the monastery. However, we went around it beacuse there are wooden statues. There were a lot of wooden statues. One looked like a swing.

After the visit to the monastery we walked to our final destination, castle Otočec. It is a hotel with 5 stars. Then we went back to Ponikva.

The field trip was a lot of fun. All of my freinds also liked the field trip. I hope the next field trip will be a lot of fun, just like this one.

# 7. ADAM'S TRAVEL

## MY INTERRAIL TRIP AROUND EUROPE

Me and my mum decided to go around Europe by train. On the first day we packed our backpacks and went on the first train in Ostrožno.

It took us to Graz, where we went to our first sleeper train. We woke up in Switzerland. It's very similar to Slovenia.

First we had to change money. We didn't have Swiss francs. Then we went around the city of Zuerich.

Their chocolate is great.

Next stop was Ringsheim. It's a small village like Ponikva but it has EUROPAPARK.

We stayed for two days, because it's so big. It is separated to many parts that are named by countries from Europe.

They have the best restaurant. It's the Looping restaurant. Food comes to your table on rails and makes loops.

But after 22 hours of fun we had to say goodbye to Europa park.

The next day we went to Strassbourg. We saw a lot of bridges and churches. The best part was when we went to ride a segway around the city. A segway is a two wheel machine that is powered by electricity.

The next day we were travelling all day and we crossed 4 countries in the same day. France, Luxembourg, Belgium and Netherlands. We took a night ferry to England.

We woke up in England on a boat. We took the first train to London and there to the best train EVER (in our opinion) and came to Glasgow where we went to our hostel. We found a great travel agency that showed us Scotland in 3 days. Look at the pictures.

We saw a lot of castles and lakes. They call them lochs. We ate a special soup that is called cully skunk. We saw where they were filming James Bond. And the Sky island is so nice. There are cliffs and it was very windy. I got my trousers dirty and everyone laughed. I loved LOCH NESS. But sadly we didn't see the Loch Ness monster. So I bought one – Nessie.

We also visited Edinbourg. It is the most beautiful town I've ever been to. There we went to the dungeon, to a castle and to the festival. I liked Ilusion centre and the Dynamic Earth. I learned a lot of new things about the earth. It was the best part of the trip.

We wanted to see the north of Scotland, so we took a train to Inverness. It's a lovely town and they have the best apple pie in the WORLD.

We took a sleeper train to London. There we visited mum's friend. She took us to Indian, Japanese and Mexican restaurants. We also took a trip to Greenwich. I spent the whole day in the Science Museum. It was so interesting.

Our last sleeper train brought us home.
